

02.06.20 – Key Information for Parents with Children Returning from 08.06.20

- Pick up and drop off – where parents are transporting their own children, you will be directed where to park by staff on entry to the car park. Please do not exit your vehicle until told it is safe to do so. This is to avoid children coming into contact with each other
- Children should not be dropped off or collected by anyone other than a household member until further notice around lifting of restrictions
- Children cannot bring **any** personal possessions, other than named water bottles, packed lunch in named bag and a snack in a named bag/box
- Long hair must be tied back and nails kept short
- Uniform is optional but clothes must be changed every day. The recommendation is they are washed at the end of the day as the virus can linger on clothing. Children can therefore wear whatever is comfortable for the weather and easy for parents
- We cannot apply sunscreen due to social distancing considerations. Please use 24 hour sunscreens before your child comes into school or use clothing that covers arms and legs and send a hat
- If your child needs medications, please arrange for it to be delivered into school before the 8th so that it can be properly logged
- School lunch will be provided but will be a packed lunch due to food hygiene regulations and the need to keep children in pods at lunchtime. School can provide snack as usual but if you are sending snack in, please do so in a named bag or box
- As we cannot refill water bottles, please send in full and named water bottles sufficient to last the day – some children use more than one in a day
- If a child becomes ill in school, a parent will need to collect them. School Transport will not take children who are ill home. A child displaying possible symptoms of coronavirus has to remain in isolation in a designated room until collected by a parent. Please ensure you have a contingency in place to be able to collect your child quickly should they fall ill
- Please do not send children with any of the following symptoms into school: a loss of taste and smell and/or a new, continuous cough, and/or a high temperature. At the current time, we advise that children displaying milder symptoms that could be a summer cold are not sent in either as children don't always display significant Covid19 symptoms, but can still spread infection. We will send home any children displaying signs of illness. Children with diarrhoea

INVESTORS IN PUPILS

should not be sent to school at all – this is because diarrhoea can be a symptom of Covid19 but also because of the risk to staff and pupils and decontamination of personal care environments

- Your child has already had a risk assessment around their return. Any child who is unable to remain in the pod environment or who presents a risk to others through spitting or biting will have the risk assessment reviewed. This may mean it isn't safe for them to come into school at this point and we will then contact the LA to see if we can amend provision to something more suitable during the coronavirus restriction period. We expect this to be a very rare occurrence
- All children will have a Reasonable Endeavours around their EHCP and parents will be contacted personally to agree this with the school
